brown as the skin of a Filipino,  
though not necessarily because Gen.  
Fulton has been town.

tumn now.

The guests at Harvey's mountain

years, traveled from Oakland, Cali-  
fornia, to Las Vegas alone, arriv-  
ing at 5 o'clock this morning on  
No. 2. He shouldered his grip bag  
a little and walked home alone.  
Under his mother's bed room window  
he whistled low, call she knew and  
she was admitted into the house with  
great joy. He reported his brother  
Lamie, who was hurt some time ago  
as much improved, being able to  
walk a mile without a cane.

Not long ago a man died here  
that man didn't have any folks here  
to see him off, so a kind citizen  
watched with him through the last  
hours, saw him shipped home an-  
gathered his personal effects and  
left them to the young man's father  
preparing the freight. That was  
four months ago. As he didn't hear  
anything from the boy, he wrote  
to inquire whether they had been re-  
ceived. The young man's father  
replied that they had—they same  
three months before. But he didn't  
utter to pay the freight.

**Care Wheels Made of Money.**

Every year we have half a billion dollars  
worth of broken or torn iron poles  
and other things we have reduced to  
useless for making railroad car  
wheels. From a bank note to a car  
wheel is about as radical a transfor-  
mation as the one brought about in  
the case of all weak, nervous and  
sickly people, who will use Hostel-  
town Stomach Pill, the leading  
American remedy for stomach, liver  
and bowel complaints. A wheel-  
barrow before me will put the stomach  
in good condition to digest the food  
and prevent the bowels from becoming  
constipated. Every one should  
keep it in the house to prevent  
bulimia, indigestion, rheumatism, dys-  
pepsia and liver and kidney trou-  
bles.

## OLD PEOPLE

No one always receives the sympathy and attention which  
they deserve. Their moments are regarded as precious  
and irreplaceable, and unavoidable at this time of  
life. Disease and infirmity should not always be associated  
with old age. The eyes of the gray-haired grand-  
mother may be bright and the complexion as fair as any of  
the younger and more vigorous companions.

**S. S. B. is the answer to healthy old age,** for it regulates  
and controls every part of the body, strengthens the nerves, makes the  
muscles elastic and supple, the bones strong and the blood pure. It  
keeps life full of health and loses its nutritive health-giving  
elements, then there is a rapid decline of the vital powers, resulting  
in premature old age and disease. Any derangement of the blood quickly  
shows itself in an older, more wan, wan, tumor or some other trouble  
growth upon the body, and rhythmic and neuralgic pains become almost  
constant, accompanied with poor digestion and cold extremitie-

s. S. B. being purely vegetable, is the safest and  
best blood purifier for old people. It does not shock  
the system like the strong mineral remedies,  
but gently and thoroughly cleanses the blood and  
stimulates the debilitated organs, while all bodily  
functions disappear. S. S. B. is just such a tonic as old people need to  
improve a weak digestion and tons of some disease.

Write us fully about your case and i  
will send you a full account of S. S. B.  
and mail free our book on Blood  
IC COMP., Atlanta, Ga.

## ROYALTY RECEIVED

Courtships Were Extended in Den-  
ver and Party Yesterday  
By C. L. COOPER

From Saturday's Daily  
The committee who has in charge  
the entertainment of Gov. Fred-  
erick W. C. Pennington yesterday had last  
night had a delightful time with Gov.  
Pennington and made a full day for them.

After meeting him and party, consisting  
of Professor Blake, of the department of physics and engineer-  
ing in the University of Kansas, and  
Dr. Charles S. Glass of Topeka, Kan.,  
a dinner and attorney for  
Pennington, the party went on an extended trip  
over the mountains east of the city. High  
ground was traversed and a good view  
was obtained of the country to  
the miles around. Dan Theodore's hand-  
some boulders were seen in the  
general and another rock, the  
members of the party, after viewing  
the rocks, went to the ballroom and  
enjoyed a game of billiards.

At 8 o'clock the party  
arrived at the Hotel Colorado, the  
most famous hotel in the city. After  
dinner the party went to the ballroom  
and took a plunge, the general  
enjoying the sport greatly. The
